

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Serial No. 9612

Date of first receipt and filing in State Engineer's office JUL 21 1932
Returned to applicant for correction DEC -6 1932
Corrected application filed _____

The undersigned A. P. Johnson
Name of applicant
of Los Angeles, County of _____
State of California, hereby make application for
permission to appropriate the public waters of the State of Nevada, as
hereinafter stated. (If applicant is a corporation, give date and place
of incorporation.) _____

1. The source of the proposed appropriation is Willow Springs
Name of stream, lake, or other source
2. The amount of water applied for is 0.025 second-feet.
One-second-foot equals 40 miners' inches
3. The water to be used for milling, mining and domestic
Irrigation, power, mining, manufacturing, domestic, or other use
4. The water is to be diverted from its source at the following point:
This is an application to change the place and manner of use (See
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land, it should be so stated.
Supplemental sheet).

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it should
be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Use will begin about _____ and end about _____, of each year.
Month Month

IF WATER IS TO BE USED FOR POWER, MINING, STOCK WATERING, OR OTHER USE, SUPPLY THE
FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) State number and kinds of animals to be watered _____
- (h) Use will begin about _____ and end about _____, of each year.
Month Month
- (i) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works

6. Estimated time required to construct works

7. Remarks

For use of applicant

APPLICATION FOR PERMISSION TO CHANGE THE PLACE
AND MANNER OF USE OF THE WATERS OF THE STATE
OF NEVADA

No. 9612

Date of first receipt and filing
in State Engineer's Office

JUL 21 1932

Returned to Applicant for Correction

DEC -6 1932

Corrected Application Filed

oooOooo

The undersigned, A. P. Johnson, whose post-office address is 813-17 Union League Building, Los Angeles, California, hereby makes application for permission to change the place and manner of use of waters heretofore appropriated and beneficially used by him, as hereinafter shown:

1. The source of the water supply proposed to be changed is WILLOW SPRINGS, located in the Johnnie Mining District, Nye County, Nevada, in the Southwest part of the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 26, T. 17 S., R. 53 E.

2. The quantity of water desired to be changed is the total amount of water flowing from said Willow Springs, to-wit, 0.025 of a cubic foot of water per second.

3. The water is to be used for mining, milling and domestic purposes.

4. The water is to be diverted from its source at the following point: the southwest part of the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 26, T. 17 S., R. 53 E., Nye County, Nevada, which is the existing point of diversion under Certificate of Appropriation No. 708, granted under Application No. 5127.

5. The water desired to be changed was applied for under Application No. 5127 and permit granted for the use of said water at the Johnnie Mine, patented along with other claims under U. S. Survey Lot No. 2181-A, and embracing a portion of T. 17 S., R. 53 E., MDB&M., situate about five miles westerly from said Willow Springs and there used for mining, milling and domestic purposes. Said water was diverted from the source through $1\frac{1}{2}$ miles of 2" pipeline and $1\frac{1}{2}$ miles of $1\frac{1}{2}$ " pipeline to Grapevine Springs, there conveyed through 4" pipeline from said Grapevine Springs to the Johnnie Mine and there stored in a 10,000 gallon tank, for the uses herein stated.

6. The description of the place of the proposed use is the Hillside, Broadway, Doris A. L. and West End lode mining claims, comprising one contiguous area of mining ground patented under Survey No. 4668, and embracing a portion of Sections 19 and 30 in T. 17 S., R. 53 E., in the Johnnie Mining District, Nye County, Nevada, together with the Digmore and Defender lode

claims unpatented, contiguous thereto.

7. The following uses, among others, are included in the term "mining and milling", to-wit, domestic purposes.

8. Use will commence January 1st and end December 31st of each year. The water has been used heretofore during all of the months of each year.

9. Water not to be returned to stream.

10. No additional works are necessary to change the place and manner of use, other than to unearth and remove the pipeline now extending from Willow Springs to Grapevine Springs and re-lay the same so as to divert the water from said Willow Springs to the place and places of use.

REMARKS

For many years the applicant, A. P. Johnson, has piped the waters from Willow Springs to Grapevine Springs and thence to the Johnnie Mine, where it was used for the operation of a 16 stamp mill, the supply of company houses, and for mining purposes. It is now sought to divert and use this water for the development of the Hillside or what is commonly known as the Labbe group of mines in actual operation at this time, and in the possession, management and control of one C. E. Wood and his assignee one Francis J. Bold, of Nye County, with whom this applicant now has contractual relations concerning the use of the water involved in this application, with a view of later assigning all of applicant's rights in said Certificate No. 5127 to the said C. E. Wood and/or his assigns, a copy of which said contract and assignment thereof is submitted with this application.

11. The work necessary to develop and accumulate the waters of Willow Springs has been performed under said Certificate No. 5127 and the affidavit of completion of work filed thereunder is hereby referred to and made a part hereof.

A. P. JOHNSON

Applicant

Cancelled April 21, 1933 because of failure to

APPROVAL

This Permit to change the manner and place of use of the waters of Willow Springs as heretofore granted under Permit No. 5127, is issued subject to prior and existing rights on the source, and with the understanding that such rights will not be affected by the change proposed herein. The amount of water to be changed shall be limited to the amount that can be applied to a beneficial use and not to exceed 0.025 of a cubic foot of water per second. The State reserves the right to regulate the use of the water under this proposed change at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to a beneficial use, and not to exceed 0.025 of a cubic foot of water per second.

Actual construction work shall begin on or before _____.

Proof of commencement of work shall be filed before _____.

Work must be prosecuted with reasonable diligence and be completed on or before _____.

Proof of completion of work shall be filed before _____.

Application of water to beneficial use shall be made on or before _____; Proof of the application of water to a beneficial use must be filed with State Engineer on or before _____.

Map filed _____.

WITNESS my hand and seal this
_____ day of _____, 1932.
